### THE SURIN PHUKET AND YOUR WELLBEING

True to the spirit of The Surin Phuket, the safety and wellbeing of our guests and associates has always been a priority. On the re-opening and in the wake of the COVID-19 global pandemic, we were sensitive in doing so, following the various compliance and government mandates, and keeping the expectations and comfort of guests and staff at the forefront of everything we do.

In addition to the standard guidelines we have implemented on the property, we reopen the hotel with a lower room count. The Surin has implemented new protocols, and required measurements will constantly evolve as the situation changes.

The Surin Phuket has also been awarded Amazing Thailand “Safety & Health Administration” (SHA) which signifies that the hotel is ready to welcome domestic and international visitors alike. Additionally, we are pleased to announce that our entire team has been vaccinated and that our heightened immunity will offer additional safety to our guests and associates.

We hope the following instills comfort and confidence that the wellbeing of our guests and employees is our top priority, and that we may welcome you in the near future.

Kind regards,  
The Surin family
